The Law Medical Group Practice

Transforming Healthcare For Resident’s In Brent

LMGP

History of LMGP

Founding Year 1985

- The Law Medical Group Practice has a proud history dating back to its founding in 1985 by Dr. Ronald Law.

Development Of The Practice

- Since then, the practice has grown significantly, expanding to two sites and offering a broad range of services, all while continuing to uphold Dr. Law's original vision of compassionate, patient-centered care.

Growing Community

- The Law Medical Group Practice operates across two convenient sites, serving over 18,000 patients in the local community.

Our Vision & Mission

Empowering Health, Transforming Lives:

Our vision at is to pioneer a healthier future by delivering exceptional medical care with compassion and innovation. We envision a community where every individual receives personalized, state-of-the-art healthcare, fostering well-being and vitality. Together, we strive to be a beacon of health, creating a lasting impact on lives and inspiring a paradigm shift in healthcare excellence.

Excellence In Patient Care

Our mission is to provide exceptional, compassionate care that puts our patients at the heart of everything we do. We take the time to listen, understand each person's needs and treat everyone with kindness, dignity and respect. As a modern, digital-first practice, we use digital services to make it easier for patients to access information, manage aspects of their care and connect with us. We also recognise that everyone's needs are different, so we aim to offer support in ways that are accessible and appropriate for each patient. Through teamwork, collaboration and a commitment to continuous improvement.

Collaborations And Partnerships

The Law Medical Group Practice is a veteran friendly practice and a registered Safe Surgery, reflecting our commitment to safe, inclusive, and accessible healthcare for all.

We actively work to remove barriers for vulnerable patients and create a welcoming environment regardless of background or immigration status.

In partnership with King's College London and Imperial College London, we help train future GPs by providing hands-on experience, supervision, and support to GP registrars as they develop their clinical skills in a real-world primary care setting.

OUR PPG

At The Law Medical Group Practice, we believe in working together with our patients to create the best possible healthcare experience. That's why we have a Patient Participation Group (PPG). A team of patients, carers, and staff who help shape the way we deliver care.

What we do

- Hold monthly meetings with patients who want to share ideas and feedback.
- Organise quarterly meetings where we review progress and plan for future improvements.
- Work together on projects that support health and wellbeing in the community.
- Provide a platform for patients' voices to be heard in key decisions.

Why it matters

By working closely with our PPG, we ensure that our services are not only clinically effective, but also responsive to the real needs of our community.

The PPG is just one way The Law Medical Group Practice shows its commitment to patient-centred care.

TWO CONVENIENT LOCATIONS WITH EXCELLENT TRAVEL LINKS

The Law Medical Group Practice is proud to serve patients across Wembley and Willesden, with two well-connected sites designed to make healthcare more accessible.

Wembley Site

Located in the heart of Wembley, our Harrow Road site is easy to reach.

Tube: Close to Wembley Central (Bakerloo & Overground) and Stonebridge Park stations.

Train: Wembley Stadium station provides quick links into central London.

Bus: Well served by routes including the 18, 92, 182, and 224.

Willesden Site

Our Harlesden site also benefits from great transport links:

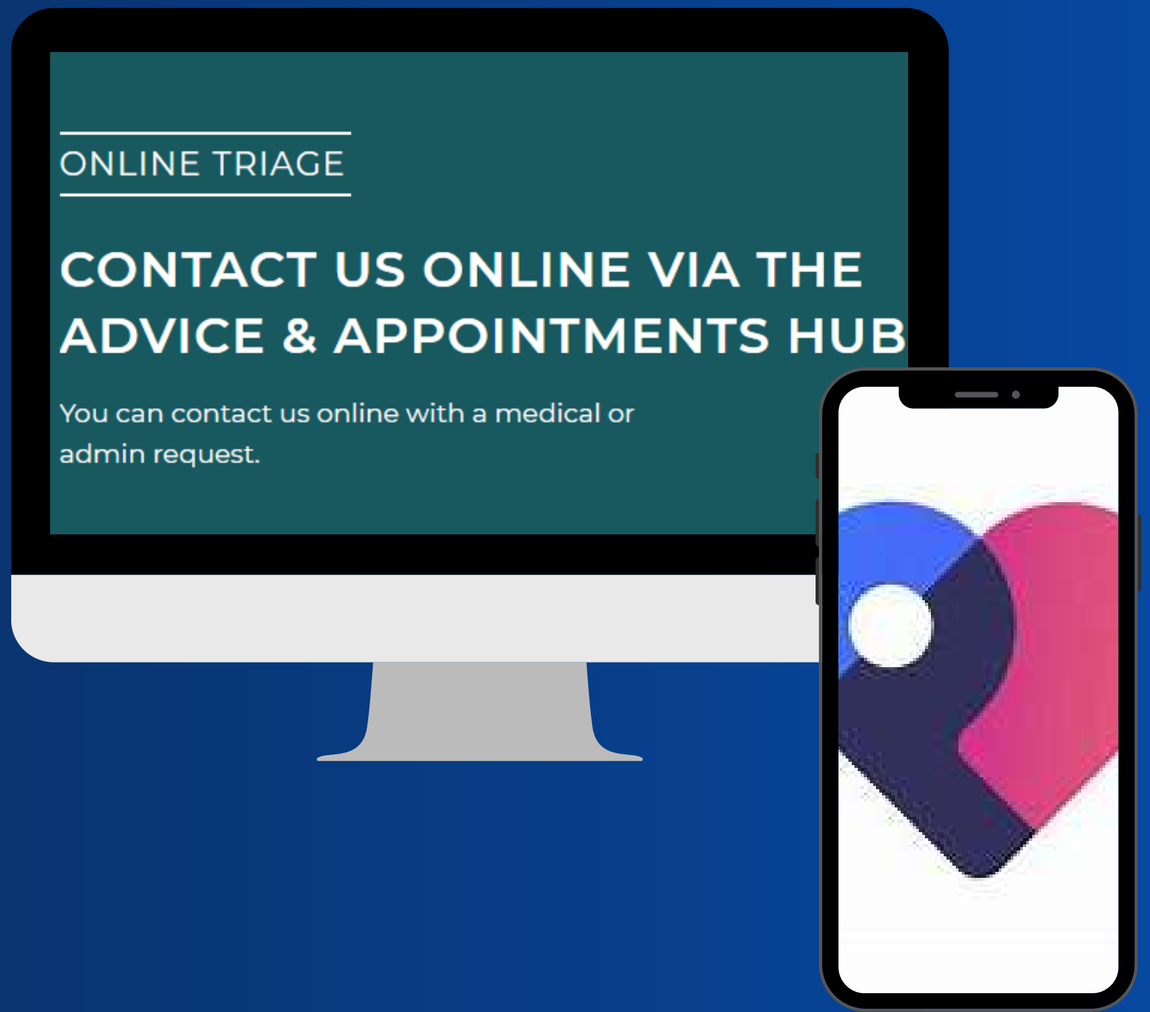

Tube: Within reach of Willesden Green (Jubilee) and Kensal Green (Bakerloo & Overground).

Train: Kensal Rise station is nearby.

Bus: Served by routes 6, 52, 226, and 302 with stops close to the practice.

Consult Your Doctor Anytime, Anywhere!

Accurx

Accurx is a convenient way to contact our practice online about a medical question, symptom or concern. You can send us information securely, and our team will review it and respond with advice, recommendations or next steps where appropriate. Depending on your needs, we may suggest an appointment or another form of care.

Patient Access

Patient Access is a secure online service where patients can send their medical questions, symptoms, or concerns to a healthcare provider. The provider reviews the information and offers advice, recommendations, or treatment plans in return. This service allows you to receive professional medical guidance without needing to visit the clinic in person.
